

The Danish Centre for Advanced Food Studies (LMC) is pleased to invite you to the LMC Congress 2011 and proud to present a wide range of internationally recognized speakers.

The congress will lead you into EU's 8<sup>th</sup> Framework Programme mirroring the 'Grand Challenges' of the world.

The nature of the 'Grand Challenges' is interdisciplinary and foodINfront embraces this from all angles of food science. Sustainable solutions are needed in areas such as 1) Food security to ensure enough food for the world's growing population, 2) Sustainable food production to address the tightening supplies of energy, water and food and 3) Food & health to improve and secure quality of life of an ageing society. These examples which also represent some of the focal points of the LMC research strategy will be addressed in foodINfront in May 2011.

### Programme

On **Monday 23 May** the plenary session presents three keynote speakers who will cover topics within Molecular Functionality, Personalized Nutrition & Health and Consumer Focus and Added Value in the Food Chain respectively. In the afternoon the three research fields will be presented in detail and discussed in parallel sessions. A congress dinner will end the day – Venue: University of Southern Denmark.

**Tuesday 24 May** will follow a similar scheme covering the topics: Sustainable Food Production, Synthetic Microbiology & Biocatalysis and Food Safety Challenges of Nano-Materials.

**Posters** will be presented throughout the congress.

### Keynote Speakers

|   |  |
|---|--|
| Prof. <b>Brent Murray</b> , UK,                 | Molecular Functionality                          |
| Prof. <b>Hannelore Daniel</b> , DE,             | Personalized Nutrition and Health                |
| Prof. <b>Paul Rozin</b> , US,                   | Consumer Focus and Added Value in the Food Chain |
| Dr. <b>Qasim Chaudhry</b> , UK,                 | Food Safety Challenges of Nano-Materials         |
| Dr. <b>Ulf Sonesson</b> , SE,                   | Sustainable Food Production                      |
| Prof. <b>Vitor A.P. Martins dos Santos</b> , NL | Synthetic Microbiology and Biocatalysis          |

An updated list of invited speakers is available at [www.LMCcongress.dk](http://www.LMCcongress.dk).

### Registration, deadlines and fees

Visit [LMCcongress.dk](http://LMCcongress.dk) to register for the congress.

|                          | <i>Low fee</i> | <i>High fee</i> |
|--------------------------|----------------|-----------------|
| Final registration:      | 15 March 2011  | 2 May 2011      |
| Submission of abstracts: | 15 March 2011  |                 |
| Delegates:               | DKK 2,600      | DKK 3,500       |
| Ph.D. students:          | DKK 1,700      | DKK 2,300       |
| Congress dinner:         | DKK 500        |                 |

#### The venue

The Radisson Blu H.C. Andersen Hotel at Claus Bergs Gade 7, DK-5000 Odense C is located 5 minutes walk from Odense railway station – that is approx 1.5 hour by train from Copenhagen and Århus as well.

You can park in front of the hotel. Free parking tickets are available at the hotel reception.
